Yash Dingar

yashdingar17@gmail.com | +91-7007651602 | github.com | linkedin.com | portfolio

Skills

Languages: JavaScript, TypeScript, Java, Python, C, C++
Frameworks & Libraries: React, Next.js, Angular, Node.js, Tailwind CSS
Backend & Tools: Firebase (Firestore, Authentication), Git, Nx, Linux
Security: RBAC Implementation, Secure Authentication (Firebase), Basic Threat Modeling

Work Experience

Shine Portal — Full-Stack Developer March 2025 – Present

- Developed a centralized academic monitoring portal used by **40+** faculty and **2500+** students to track compliance and assessment workflows.
- Implemented role-based dashboards supporting 4+ user roles with real-time tracking and notifications
- Implemented RBAC, secure authentication, and Firestore security rules (Google Cybersecurity Certificate).
- Automated verification workflows, reducing manual administrative effort by approximately **40–60%**.

MAZ Project — Full-Stack Developer Intern January 2026 – Present

- Built a workforce management portal connecting clients, managers, and employees across multiple roles.
- Implemented dynamic task allocation based on skill set, workload, and performance, improving distribution efficiency by 40%.
- Applied RBAC and secure authentication; reduced manual task assignment effort by 50%.

Projects

Academic Monitoring & Student–Faculty Portals

- Built full-stack academic portals using Next.js and Firebase to automate faculty compliance and student workflows.
- Implemented role-based access. Reduced faculty administrative workload by approximately 60%.
- Tech: Next.js, Firebase (Firestore, Auth), Tailwind CSS
- Live App: shineportal.online

Secure Authentication & Role-Based Access System

- Designed and implemented a secure authentication and authorization system using Firebase Auth and Firestore security rules.
- Enforced role-based access control to restrict sensitive operations across multiple user roles.
- Implemented input validation and permission checks to prevent unauthorized data access.

Education

Bachelor of Technology in Computer Science 2024 - 2028
SRM Institute of Science and Technology (SRMIST)
Relevant Coursework: Design and Analysis of Algorithms, Data Structures, DBMS, Operating Systems, Computer Networks

Awards & Certifications

- Thematic Award Winner — IDEATHON 2025 (SCRS USA @ FIU)
- Research Paper Presenter — ANTIC 2025 (Springer)
- OneEarth International Hackathon 2025 – Winner
- Google Cybersecurity Professional Certificate — Google (Feb 2026)
