Yash Dingar

yashdingar17@gmail.com | +91-7007651602 | github.com | linkedin.com | portfolio

Skills

Languages: JavaScript, TypeScript, Java, Python, C, C++
Frameworks & Libraries: React, Next.js, Angular, Node.js, Tailwind CSS
Backend & Tools: Firebase, Supabase, Flask, MySQL, AWS, Git, Nx
Security: RBAC Implementation, Secure Authentication (Firebase), Basic Threat Modeling

Work Experience

Team Lead — Student & Faculty Portal Development (Shine Portal) Apr 2025 – Present

- Built an academic monitoring portal used by **40+** faculty and **2500+** students.
- Built role-based dashboards for 4+ user roles with real-time tracking and notifications.
- Implemented RBAC, secure authentication and Firestore security rules.
- Automated verification workflows, reducing manual administrative effort by approximately **40–60%**.

Maz Software Solutions — Software Engineering Intern (Angular & Nx) Jan 2026 – Oct 2026

- Built modular Angular features in an Nx monorepo, reducing code conflicts across 3+ product streams.
- Integrated Angular services with backend REST APIs, cutting end-to-end data latency.
- Deployed on AWS and contributed to a CI/CD pipeline that cut manual release steps by 30%.

Projects

TaskMesh — Smart Workflow Assignment System Live Demo

- Assigns client requests to employees by capability and workload, with role-based access via Firebase Auth and Firestore. Tech: Angular, TypeScript, Firebase.

HR Project Portal — Supabase & React

- Role-based portal on Supabase (PostgreSQL) and React (Admin, HR, Employee, Intern).
- HR creates projects and teams; includes a timeline and terminate-with-history.

VERGE — Renewable Energy Marketplace (Research) GitHub

- Next.js 15 renewable energy marketplace with buyer and generator dashboards, REC and VPPA contracts. Part of an SRMIST research paper.

AchieveX — Student Achievement System (Flask & MySQL) GitHub

- CRUD app with a live SQL query logging panel that shows backend database activity.

Web Vulnerability Scanner — Python CLI GitHub

- Detects SQL Injection, XSS and CSRF; generates HTML/JSON reports.

Education

Bachelor of Technology in Computer Science 2024 - 2028
SRM Institute of Science and Technology (SRMIST)
Relevant Coursework: Design and Analysis of Algorithms, Data Structures, DBMS, Operating Systems, Computer Networks

Awards & Certifications

- Thematic Award Winner — IDEATHON 2025 (SCRS USA @ FIU, Team Cultivatech)
- Research Paper Presenter — ANTIC 2025 (Springer)
- Thematic Winner — OneEarth International Hackathon 2025, Track 4 (Team NetZero)
- Google Cybersecurity Professional Certificate — Google (Feb 2026)
- DBMS Course Certificate of Excellence — Scaler Topics (Oct 2026)
